Farmers and Merchants Get Together In Drafting Resolutions For Government

Delegates Sent To Good Roads Convention To Ask The Govern-
ment For Better Roads and Telephones.

At the U. F. A. meeting held on
Saturday last, an invitation had
been extended to the business men
of Alderson, to discuss the sending
of a joint delegation to represent
this district at the Good Roads
Convention to be held in Medicine
Hat. Several availed themselves of
the opportunity to get together
with the farmers. The need of
road work was found to be a very
live issue, both in regard to govern-
ment and municipal roads. After
some discussion it was decided to
draft different resolutions have
them forwarded.

The matter of a rural telephone
system, which is a no new question
for this district, was also brought
under discussion. After several
schemes and systems were spoken
of, a resolution was framed, which
should be put before the representa-
tives of the government at the
meeting on Tuesday, requesting the
government to build a rural tele-
phone system through this district
north and south of Alderson taking
in about 15 townships; or build a
trunk line from the poles on the
north road straight through to Jen-
ner with lines cutting in from po-
stices in the adjacent country,
giving these farmers telephonic
communication with Alderson,
Jenner and Suffield, and probably
a limited long distance connection.

The gentlemen to act as a dele-
gation were Messrs H. W. Johnson,
N. E. Stuart and W. J. Hall.

One resolution was passed to be
sent to the Sunny South Municipality
in regard to the Agatha road,
that in view of the fact that the
government finished their part of
the contract last summer, that the
municipality make an early start
to complete the road.

Two resolutions were made for
the delegates to take to the Good
Roads Convention and place before
the members of the government
present. One to the effect that the
farmers and business men in joint
action request the government to
put the trunk road east of Suffield
and west of Tilly in good shape,
the road being in some places
under water. The second resolution
was in regard to telephones,
that the government construct a
rural system in the district, adding
that if the government did not see
its way to do this that trunk line
be built from the north road to
Bluegrass and on to Jenner, with a
connection from Tide Lake,
Tripols and Brutus.

A resolution was also passed to
be sent to King Municipality re-
questing that two pieces of road be
put in a condition to travel.

W. J. Hall, President of the U.
F. A. was chairman and H. W.
acting secretary.

The bank here along with others,
is feeling the shortage of help. As
there is no exemptions the bank
clerk is taking with the next man
and the gentler sex introduced in
his place. The local manager, Mr.
Wood, now has three fair young
maids. Owing to the situation of
short staffs new regulations have
been issued to all banks and will
affect this bank and everyone else
around here. On June 1st the
banking hours will change and you
will have to do your business from
9:30 a.m. to 2:30 p.m. except Sat-
urday when you may have from
9:30 a.m. to 12 noon. According
to the regulations when closed the
bank must stay closed, which may
be somewhat of a hardship to some
until they get accustomed to the
hours.

What Has Been Told

What do you know? We want
to know it.

Wm McClurg has purchased the
Fon Hunt farm, north of town.
G. R. Fougny handled the deal.

Dave McKinnon is visiting the
folks at home at Lenore, Man, be-
fore reporting on June 1st.

At the Farmers Convention on
Tuesday in Medicine Hat we noted
J. J. Hall, N. E. Stuart, H. W.
Johnson, W. Clarkson, W. Hutchin-
son, N. C. Barrie, M. Jones, W.
Dodd, and there may be more.

Mr and Mrs Smith have taken
up residence with Mrs Rosenberg.

R. Nimmans left today for Banff

Rev Steele is in attendance at
the District Meeting of the Metho-
dist Church being held at Medicine
Hat.

H. H. Phillips, of Harvey, N.D.
and a C. P. R. land agent, is up
with a party. He has sold three
sections and will sell more.

With land sold outright and land
that options have been taken on,
there is nearly forty sections of
C. P. R. land been taken up this
spring.

Chas. Riddell was in town yester-
day. His exemption expires on
June 1st, and G. M. Thompson
is on the way to Jenner to look
after their joint lumber yard there.

R. E. Monahan, who has been
at Creston, B.C. is back on his
farm.

A number of the boys here have
been put in Class A, among them
is L. Hanson, E. Litch, G. Con-
ley, C. Clark, G. Olson, D. McKin-
non, O. Berget, G. Janzen, R.
Waggon, W. Wagar, J. Parkarri,
W. Parkarri, A. Carlson, G. Hil-
dahl, D. Brenner, has been put
in Class D.

A. J. Drummond was in Medi-
cine Hat this week.

E. Dodd is spending a few days
in Calgary.

Good Roads Convention

Farmers Lay Their Wants Be-
fore the Government In
Open Meeting

The Empire Theatre, Medicine
Hat, was almost crowded on Tues-
day morning when the farming
communities availed themselves of
the invitation of the Medicine Hat
Board of Trade to meet in open
conference, with members of the
government.

At the morning convention Mr.
Tweed, the president of the Board
of Trade, was chairman. At this
the delegates presented their peti-
tions, backed up with remarks that
were very critical as the method
perused by the government. The
voice of Harry Jones, of Brutus,
was heard in strong protest of the
condition of the roads. "We have
been told that the prairie roads are
the best," said Mr. Jones, "but in
the Bruce country country they
are all fenced off and now we have
no roads to travel. We are worse
off than a prisoner in Germany.
When we located we were promised
the C.N. railroad but it has not
come. We are asked for greater
production. We have the wheat,
it is growing now, and what we
want is a road that a fellow can
haul a hundred bushels without
risking his neck." He asked that
the Jenner to Suffield road be put
in condition. Mr. H. W. Johnson,
the delegate from Alderson present-
ed the two petitions from here, one
in regard to the trunk road which
has been patched up so often, ask-
ing that this year the government
make the grade wider and the fill
higher, placing chert at each
place needed. The other petition
was for a telephone system through
the district. In reading the peti-
tion Mr. Johnson added "If nothing
is done, you may hear from us
later."

During the adjournment for
lunch, Messrs Johnson, Hall, Stuart,
Hutchinson and Thornton formed a
committee of themselves and wait-
ed upon the Hon. C. R. Mitchell,
Acting Premier, to endeavor to get
the telephone petition through.
Mr. Mitchell stated that the thing
was impossible, that the depart-
ment was not doing any construc-
tion work at all and would not
until after the war and conditions
were back to normal. Mr. Mitchell
was proof against the persuasive
powers of the committee.

The afternoon meeting was taken
up with speeches by the Cabinet
members present. Mayor Brown,
chairman, first called on the Hon.
C. R. Mitchell, Acting Premier

Mitchell stated that he was present
in the place of Premier Stewart,
who has been called by the Premier
of the Dominion. He dealt with
the petitions presented in the
morning telling the farmers what
they might expect, and was very
well received.

The Hon. Mr. McLean, Minister
of Public Works, spoke next, and
assured the farmers that this dis-
trict would receive the attention of
the department, which, owing to
the war could only spend money
when absolutely needed.

The next speaker was the Minis-
ter of Agriculture, Hon. Duncan
Marshall, who spoke along general
agricultural line. He asked the
farmers to put in barley as it might
have to be used for bread. He also
urged upon his hearers that when
breeding stock to always breed to
the best.

At the close of the afternoon
session the Medicine Hat Auto Club
took the visitors around the city,
showing the many industries.

The Dodd Brothers claim to have
broken 115 acres in five days, and
with horses. Can you beat it? In
like record breaking time they
disced, harrowed, and seeded it to
flax. We have forgotten the time.

"Support and Substitution"

The Great Work for This Time Until the War

"Support and substitution" is a phrase that is being heard more and more these days, on this side of the Atlantic. For more than a year the meaning has been realized in both English and French. It is a very simple thing that has nations coming and making it a part of their life. It is a thing that has been accepted and the duties involved in that meaning. At the very best of this new war slogan, lies the conviction that our men in the trenches must be supported by a constant and dependable stream of reinforcements. Men must be replaced from civilian life. Furthermore, our boys must be supported by a practically unlimited supply of ammunition which is up to standard in every particular.

The third item of support is food. This, too, must be of the best and standard. There must never be an anxious moment "over there" be it there to be a possible shortage of food which must be in Canada, first. An unending supply of food, clothing and food constitutes the whole matter of support. From the very beginning of the war our men have been planning for the first two things. They must be fed, they must be clothed, under no circumstances, must they be forced to go without attention to the matter of food supply.

Support can be given only by substitution of labor, in the most logical solution lies with the work of each nation. The English and French women have done well. Canadian women are more than willing to do their share of the work which is, by far, the most important of any war work yet undertaken by women. It is too much to say it is the most important work yet taken by either men or women? Canadian women have already done much in munitions. They have found the pioneers in this substitution movement. From the farms and dairies, gardening was carried on so that when the winter months have been devoted to preparation for a more vigorous substitution on the farm, the women attended, conducted, and tried, training, English and fighting like their English sisters. Canadian women are training for when the first call comes they can present themselves thoroughly equipped to train.

It is interesting to note that in practically every instance the women, where women have substituted on the land they have been accepted enthusiastically by the farmer and parted with regretfully. It is a fact that he had drawn a lucky number in the war-time work of the women. It is a fact that he had drawn a lucky number in the war-time work of the women. It is a fact that he had drawn a lucky number in the war-time work of the women.

The verdict of the farmers themselves at the end of their first season with "fancruettes" is that they are far superior to the typical "hired man" who is too much of a material. They are simply "the men with the wheel." When told to do a piece of work the girls do it directly and have no theories to offer. They expect to work and are careful of the materials. College girls apply the discipline gained through studies in the kitchen that what they are doing is helping the men in the trenches carry the war to a successful finish.

Not all women can substitute by making munitions of defense or by service. But the talents of every woman can be substituted in a number of ways. The woman who cannot farm but is a good cook can give her services in that line to the housekeeper who can farm. The one who can cook can substitute her services for those dependent on the cook who can also farm. The one with the training or intellect of the kindergarten can devote her skill to the care of the children of the women who can farm, and so on down the line of occupations and workers. The escape from work that may have become uninteresting and even distasteful to work that is congenial will be, in itself, a real recreation.

The city woman is as closely linked up to the system of substitution as the country sister. She can substitute her training and her intellect for exchange for work at which she would not be a success. She can organize committees of whole communities, can conduct successful registration drives and other work, workers where they count for most. She can organize whole villages and villages into co-operative living that will be real welfare work and pave the way for future nationwide campaigns which must come later if it is to be of any use. It is a fact that she can do it, and she can do it as well as she can.

The city woman who can demonstrate successfully could organize community campaign centres and here again the confidence of the community, the worker of her leisure and a store of wisdom. She can be put by for the one who is forced to forsake home for a while and substitute in order to support the one who is an expert caretaker should find a place where her services are needed. The utmost in conserving food, even though she has never tasted for her own family. Not one talent must go unused. Substitution is the great work from this time until the war ends. No one must claim exemption and in a very real sense the woman who substitutes must be supported while she is in support.

Nothing to Go By. "Nothing to go by" really you can never judge a girl by her clothes. "Nothing to go by" really you can never judge a girl by her clothes. "Nothing to go by" really you can never judge a girl by her clothes.

When Carey Stopped the Gap

The Good Work of the Men Past the Fighting Area

The more we hear about Brigadier-General Carey, the more we are struck by the fact that he is a man of great vision and great heart. He is a man who has seen the need of the British line for nearly six years. He has seen the need of the British line for nearly six years. He has seen the need of the British line for nearly six years.

He has seen the need of the British line for nearly six years. He has seen the need of the British line for nearly six years. He has seen the need of the British line for nearly six years.

Sixtus in Belgian Army

He is the Brother-in-law to Whom the Emperor Wrote of Peace

The brother-in-law whom Emperor Charles of Austria, in his famous letter of March 31, 1917, as "Dear Sixtus" is an officer in the Belgian army. Prince Sixtus of Bourbon-Parma, born in 1886, and consequently six years older than his sister, Empress Zita.

Another brother of the emperor, Prince Xavier, born in 1889, is serving in the same army, and for a time, after the war, he was in the King Albert. A half brother, Prince Louis, born in 1890, is attached to the general staff of the Austrian army. Two sisters of the emperor, Archduchess Marie and Archduchess Marie, are English war nurses.

At the beginning of the war Sixtus and Xavier, whose sister had married the Duke of Braganza, were tried to enlist in the French army, but could not be presented an account of the law excluding from that army all members of the former French royal family, both of which were from the Bourbon line.

So they joined the Belgian army, carried wounded at Namur and the Yser, and they were lost sight of in Flanders. Xavier is said to have performed work, on account of his German appearance and knowledge of the German language, the nature of which is known only to King Albert. On January 1, 1919, the brothers were thus spoken of in the "French army" and "the Belgian army."

The Dover Straits

What the Waters Hide of the Economy's Losses

At the beginning of last century when the name of Napoleon was on the lips of every man, woman and child, Nelson was given command of the "Sagittarius" and his "Service" which was the way in which the admiralty concealed the fact that the "Sagittarius" was charged with the defence of England against the preparations of the French fleet. In this case there is a tendency to underestimate the importance of this station and to ignore the difficulties with which the Dover Patrol has to contend. In the last century are never obtained outside of command of the Channel; swift enemy ships were day after day, in spite of the measures which our steamers converted with less resource and courage. The steam engine had not made its appearance to assist an enemy's riding policy; Fulton's dream of the submarine was nothing more than a dream; the mine, as we know it today, had not been developed as a means of attack. The British navy charged with keeping open the sea communication with the continent, there was no aircraft to assist the enemy to overtake our operations.

In this case there is a tendency to underestimate the importance of this station and to ignore the difficulties with which the Dover Patrol has to contend. In the last century are never obtained outside of command of the Channel; swift enemy ships were day after day, in spite of the measures which our steamers converted with less resource and courage. SALES WANTED TO DO PLAIN AND

Shells of Long Range Gun

Weights 200 Pounds and Contains

Less Than Twenty Pounds

of Explosives

The caliber of the shells that are

freed into Paris by the German long-

range guns is 8.8 inches, and the

weight of the shell is twenty inches.

L'homme Libre, Premier Clemenceau's

staggering, states: "The shell weighs

200 pounds, and contains less than

twenty pounds of explosives."

The shell is provided with a fuse

protected by a threaded stopper and

the shell into two compartments

of separated explosives. Two holes in

the diaphragm afford communication

between the two pockets.

These facts are accepted as an

explanation of the two explosions

which on occasions have followed in

quick succession, and which led to

the belief that two guns were firing.

Sea Control Means Victory

Command of the Sea Upon Which

the Existence of the British

Empire Depends

Germany has raised about her

the idea of invulnerable commerce

area, whose strength continues to

grow, who are pledged utterly

to destroy German sea-power. Give

them time enough and they will cer-

tainly do it. Now the position is

that Germany is the one who is

deprived of the use of the water

of the world. It would be her terri-

ficial gain. They would be val-

uable, but they would not serve to

remove the overseas commerce

which depends her ability to trade

no illusions on the subject. Their

dream that the German people should

learn the true state of affairs is so

extreme that they are compelled to

exaggerate the losses inflicted by

submarine warfare, the exaggeration

on one occasion reaching 70 per cent

error. So far as this country is

concerned, it is our part, first and

last, to resist and to maintain that

command of the sea upon which the

existence of the British empire de-

pends, which is only now disrupted

by the pirate submarine, and for which

no sacrifice can be refused—London

Morning Post.

Dust Causes Asthma. Even a little

grain too small to see will lead to

agony which no words can describe.

The walls of the breathing tubes con-

tract and it seems as if the very life

must pass. From this condition Dr.

D. C. Kellogg's Asthma Remedy

brings the user to perfect rest and

health. It relieves the passages

normal breathing is firmly established

again. Hundreds of testimonials

received annually prove its effective-

ness.

Thinning Them Out

Estimate German Losses in War to

Date at \$500,000,000

German writers estimate the grand

total of German killed and prison-

ers adding those dying of illness and

naval fighting at 5,000,000.

Karl Bleibers, the German military

expert, declares in *Neue Europa*, the

German losses on the west front be-

tween August, 1914, and August, 1917,

totalled 2,600,000. On the east front

he said the total of killed and prison-

ers was 1,485,550.

German writers estimate the German

losses between August, 1917, and

January, 1918, as 367,450 killed and

prisoners "on both fronts."

New Law Enforced

Several restaurant men who have

either willfully or innocently ignored

the regulations passed by the Cana-

dian food board governing the prepara-

tion of food stuffs in public eating

places have been heavily fined.

Willful Waste of Food

Canada Food Board Will Deal Se-

verely With Offenders

Willful waste of any food or food

products or waste resulting from

carelessness or from imperfect stor-

age facilities, has been made illegal

and subject to summary action by the

Canada food board. By the

terms of this order, responsibility is

laid upon private citizens to see that

no food is lost by being kept too

long or by carelessness in storage.

If a private citizen has reason to be-

lieve that a food storage facility, such

as a store, restaurant or hotel is wast-

ing food in any way, he has the op-

portunity of making a complaint to

the municipal authorities with the

knowledge that the law is behind

him. At a time like this, when food

is so scarce in the world and so high

in price even in Canada where com-

parative abundance still prevails,

it is the positive duty of the private

citizen to uphold the law against waste

and to carry out the full spirit of the

law in his own household and in his

business.

In the past it has been the habit

of many people to complain bitterly

at the lack of regulations in regard

to waste and to lay responsibility

upon the Dominion government. The

constant remark was "Why does not

the government do something?"

Now, however, the law is behind

the citizen. The law is behind him

and he must do something. The law

is behind him and he must do some-

thing. It has, in fact, done all

that could be expected of it. It has

provided that no person shall waste

food. It has provided that no person

shall waste food. It has provided

that no person shall waste food.

It has provided that no person

shall waste food. It has provided

that no person shall waste food.

It has provided that no person

shall waste food. It has provided

that no person shall waste food.

It has provided that no person

shall waste food. It has provided

that no person shall waste food.

It has provided that no person

shall waste food. It has provided

that no person shall waste food.

It has provided that no person

shall waste food. It has provided

that no person shall waste food.

It has provided that no person

shall waste food. It has provided

that no person shall waste food.

It has provided that no person

shall waste food. It has provided

that no person shall waste food.

It has provided that no person

shall waste food. It has provided

that no person shall waste food.

It has provided that no person

shall waste food. It has provided

that no person shall waste food.

It has provided that no person

shall waste food. It has provided

that no person shall waste food.

It has provided that no person

ALDERSON, ALBERTA, MAY 28, 1918

Red Cross Notes

CONDUCTED BY MRS. E. C. HAY.

We cannot all be in the trenches but every one of us can—and must—sustain and help those who are. We may not all have relations or near and dear ones "over there," but as an act of humanity we must help these brave boys when they are lying sick and wounded after doing their bit. Not as an act of mercy alone, but as an act of war, help the Red Cross deal, support and cheer our soldiers that they may fight the good good fight to the end.

None of us here can give as greatly as they gave and others are yet to give. But can we not sacrifice ourselves a little? Will you take a little from the comforts of your life and give not a mere "conscience gift," that saves your pride and lets you to say: I have given to the Red Cross, but a gift that cuts down into the quick and hurts because it makes you deny yourself. Give to the Red Cross every dollar you possibly can. Remember those brave lads gave till they died.

The following cable has been received at the head office of the C.R.C.S.

Boulogne, April 18th, 1918
Marshall

Red Cross, Toronto.

"Please inform Washington everything possible being done by our society for American wounded in Canadian hospitals."

Blaylock

Word has been received through the Canadian Red Cross Commission from Rouleau assuring the Society that everything is being done for the sick and wounded; that the demand is heavy; but not an unfilled remains from line to base.

The last six months has witnessed an splendid increase in Red Cross work throughout the province. Thirty-one new branches have been organized since the annual meeting of the Alberta Provincial Branch in October. During the first six months of the current year, \$130,000.00 has been forwarded from this province as a cash contribution to the General Funds being approximately as much as was sent forward during the whole of last year. In addition to this large increase is also recorded in the number of supplies sent forward.

Lady Drummond, head of the Information Bureau C.R.C.S. has been appointed Assistant Commissioner in France.

The Society acknowledges with thanks the following donation
John Engler \$10.00

I will be shipping hogs and cattle on Tuesday, June 4th. F. W. Datz, agent United Grain Growers.

R Lovell and family are now settling on the McPhail farm and putting in the big crop.

Harry Johnson is in Calgary on business.

J. A. McKenzie, coming from Airdrie, will be the new C. P. R. Agent here, and expected down to relieve Mr. Williams at any time.

O. J. Wood has had a brick cistern built at his residence.

Sunday week the new C. P. R. timetable will come into effect. It will give this town two trains each way each day.

J. A. Trusna, of Triplos, has sold his registered shire stallion to G. Y. Warmink, New Holland, Sec. 14-17-9, and stands at his barn for service.

The Ladies Aid will meet at the home of Mrs. G. F. Starr on Wednesday, May 29th.

May 26th, is U.F.A. Sunday and Rev Steele has been asked to hold services here for that occasion. He will hold services at the Hargrave school in the afternoon and in the United Church in the evening.

Replace Your Buggy With a Ford

MORE than 100,000 Fords are owned by people in Canada in preference to the old horse-drawn buggy and other makes of cars.

Your neighbors, and farmers in every section of the Dominion are abandoning their old buggies—selling their driving horses and buying Fords.

Ford cars are utility cars. They are built to endure the strain of constant daily use over rough roads.

These are the tests every farmer gives his car. The Ford meets them in a satisfactory manner. It is the farmer's car, so why not replace your horse and buggy with a Ford?

Buy an Irrigated Farm

FROM THE CANADIAN PACIFIC RAILWAY

BECAUSE:

Irrigation makes the farmer independent of rainfall, and insures good crops, not occasionally, but every year.

Irrigation makes possible the successful culture of alfalfa, the king of fodders, which insures good returns in dairying and mixed farming.

Irrigation means intensive farming and close settlement with all the advantages of a densely populated agricultural community.

Irrigation in the Canadian Pacific Railway Irrigation Block is no longer an experiment; the years that it has been tried having absolutely demonstrated its success wherever intelligently applied.

This is the most liberal offer of Irrigated Farm Land on record

For full particulars apply to

THE ALDERSON NEWS.

Subscription \$50 per year

R. I. P.

Rest in Peace: This will be the sign that will be tacked across the Alderson News, unless the Merchants of this fair Village will keep it alive.

In local advertising, the News has netted its owner about \$5.00 per week this month. In these days, that will not permit him to live.

There are three things open to do: close up, move out, get business.

The first we do not intend to do. The second we can do, but do not want to do. The third we may do and intend to do.

The News has been loyal to this community, it has boosted for Alderson and its columns have been open and will be open for the benefit of this district. The fact that towns are advertising for newspapers to go into them is evidence that a paper is an asset to any town.

Therefore if the business houses of this town are content with the business that they are getting and think that we have boosted enough, we can apply elsewhere for our advertising, and where our advertising is there will our boosting be also.

For some reason there is a prejudice against advertising. Every store here has to contend with the Mail Order evil, and it seems like running up against a brick wall. The Mail Order House figure 5% for advertising and the local merchant figures the least possible amount and come consider it an expense and do not advertise at all. Needless to say this kind of bucking does not hurt the Mail Order House. who continue to get the cream of the business.

The time has come when we have to get after that 5% and if Alderson does not want our wares we must sell to those who will buy.
